

# WHY CHOOSE TOUCHBUBBLE AS A LONG-TERM PARTNER ?

## FOR ONLINE SHOPPING COMPANIES

### • Engage your customers

Touch Bubble Rich Media 3D dynamically transforms your product content into a rich media product demo, engaging customers to interact with it, bringing the best in-store sales experience online to drive sales.

### • Supplementary to your current model

Touch Bubble RM 3D doesn't require you to change your current product view model. It works as addition to 2D Picture representation of the product, providing your customer with options.

### • Building your brand

Get notices for the latest innovations implemented to your site. Let customers know that you are always new, fresh and innovative.

### • It Works for Manufacturers

Through Touch Bubble Rich Media 3D you are able to improve control of the product message, helping your customers learn better about your products, leaving them with good experience and brand loyalty.

### • Enhance your competitiveness

Intense competition in online eCommerce requires companies to find new innovations for their business to attract and retain customers and stay informed of their competitors. The ones, who imply this technology first are able to stay at the front line of their business, leaving their competitors behind.

## FOR ONLINE SHOPPERS

### • Interact with the products

Touch Bubble RM 3D allows you to interact with the products of your interest. Besides static 2D pictures, now you are able to zoom, rotate, move, flip, see each aspect of the product from any angle and more.

### • Get your hands on product

See the complete design of products  
Change the product's color  
Alter the product's design

### • Increase your confidence

Items become tangible and real with Touch Bubble Rich Media 3D. The nearest representation of shopping in a physical store online. According to several independent reports, customers are 50 to 70% more likely to make a purchase if the product is presented in 3D.

### • Familiar and Easy of use

We live in interactive environment, where 3D is absolutely perceptible, we see it in the movies, games, ads, etc. Thus, people are very familiar with 3D and using it online presents no difficulties even for inexperienced shoppers. Shift your mouse and see how products come alive.

### • Custom Configurator

Touch Bubble plans to implement custom configurator, so that shoppers could change colors of the product to see how it will look like, without having to pick up another picture with the color they want.

## Why Rich Media 3D?

### 3D is Interactive

Touch Bubble Rich Media Merchandising Solution delivers a highly interactive shopping experience at the point of purchase, the product page, through powerful content transformation tools, just-in-time delivery and real-time analytics.

### 3D is Exciting

For online shoppers, 3D provides a richer, more lifelike, informative, and entertaining experience than 2D. They are able to zoom, rotate, move, flip, see each aspect of the product from any angle and more.

### 3D is Affordable

Recent advances are driving the quality of the 3D experience up while driving the price of the technology down. **VIEW OUR SAMPLES** at [www.TouchBubble.com](http://www.TouchBubble.com)
